SUSTAINABLE CARPET COLLECTION

meritflex

SS206 COLOR 259 PRAIRIE

GOING GREEN  
MEANS SHIFTING  
AN INDUSTRY  
STANDARD

The EcoSense Sustainable Collection gives you the opportunity to design green and shift an industry standard by specifying guest room carpet in a 26 oz. weight instead of 32 oz. These styles have been micro-engineered to use less material and reduce their environmental footprint. It is the first lower ounce weight guest room option in the industry, with smart looking designs that make it easy for you to choose green for your design projects. Coordinate patterns from two design groupings and two different color palettes - the original EcoSense and EcoSense Stripe. Stripes are perfect for corridors and public areas in addition to guestrooms & suites, and coordinate well with a variety of patterns.

- Available in 26 oz. or 32 oz.
- Contains 10% pre-consumer recycled content by total weight (26 oz.)
- Made with Colorstrand® solution dyed nylon.
- CRI Green Label Plus® certified.
- Contributes to LEED® Certification under MR Credit 4.1 & 4.2 for Recycled Content.
- 100% recyclable through ReCover - The Mohawk Group's carpet recycling program.

## EcoSense Stripe

- 26 Patterns
- 8 Colors
- 1500 sy minimum\*
- Coordinates with original EcoSense collection

To view all patterns in the 8 available colors go to:

## ECOSENSE STRIPE COLOR PALETTE

253 Grassland

259 Prairie

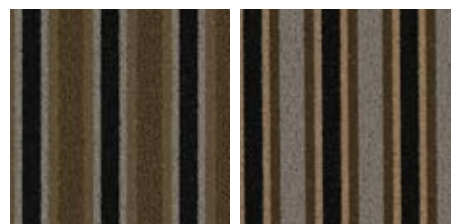

335 Wildfire

473 Rainforest

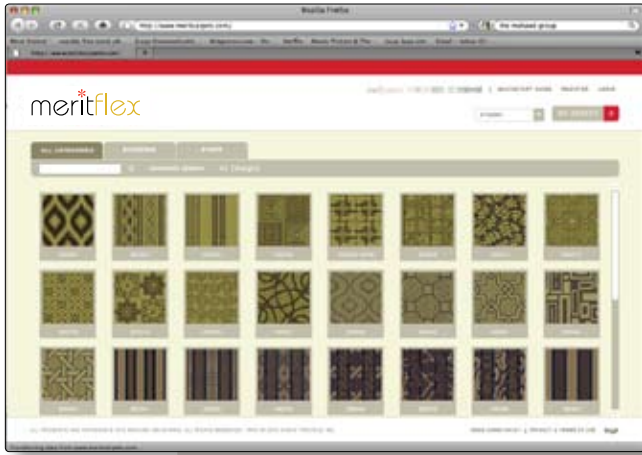

535 Ice Cap

586 Ozone

878 Storm

989 Cyclone

IF IT'S NOT RUNNING LINE – AND IT'S NOT CUSTOM – WHAT IS IT? MeritFlex collections offer a wide array of patterns with a distinctive colorway. Select any pattern offered in the grouping in the available color choices for lower yardage minimums than typical custom orders. You can also select multiple patterns within an order if necessary, giving you the flexibility to find the right design(s) without ordering more carpet than you need.
