## Safety and Comfort Underfoot

DuraHealth's ergonomic design allows surgeons, nurses and other healthcare professionals to stand for extended periods of time, reduces noise generation, and absorbs more noise than conventional flooring. It supports the healing and recovery process by reducing foot-fall impact on joints and muscles. Also cushions patients' legs and lower back when standing and walking, especially during the recovery phase. In addition, DuraHealth<sup>1</sup> utilizes "NitraGuard" technology, which actively suppresses flame and smoke development. The result is a quieter, more comfortable work environment and safe, pleasant surroundings that support the physical healing and total well-being of patients.

<sup>1</sup> DuraHealth Patent pending.

# Unmatched Safety and Hygienic Properties

Hygiene and infection control measures are paramount to healthcare success. Healthcare flooring is no exception. DuraHealth's inherent antibacterial and anti-microbial benefits can be attributed to its sulphur curing process, a process that also renders it mold and mildew resistant. The result is a palette of 16 colors whose high gloss finish creates an atmosphere of cleanliness that repels dirt and requires minimal maintenance. DuraHealth is the optimal choice for a wide range of healthcare applications:

- Emergency and triage areas
- Corridors and lounges
- Treatment rooms
- Patient rooms
- Operating rooms
- Scrub rooms
- X-ray rooms
- M.R.I. and C.A.T. scan areas
- Birthing rooms
- Retirement homes
- Laboratories

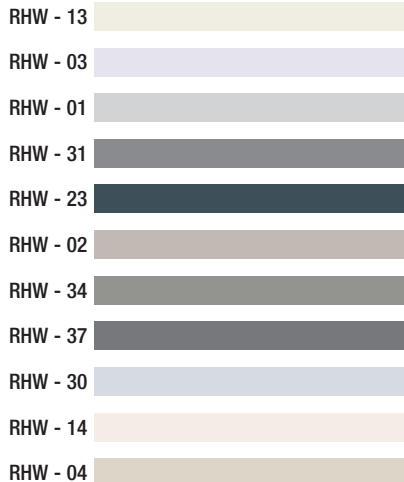

When used in combination with the Pro-Tech puncture proof cove system, DuraHealth forms a completely sealed floor that is easily decontaminated and cleaned. With a design aesthetic unparalleled in the arena of institutional design, DuraHealth completes the overall system of wellness, vitality and life.

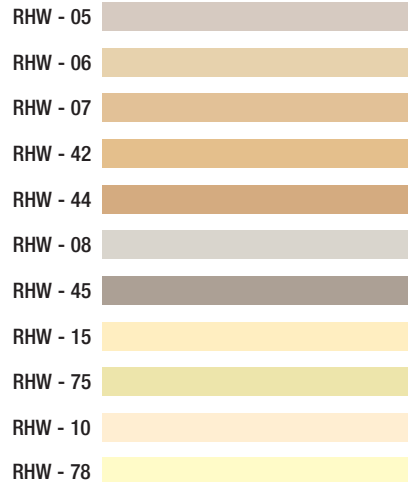

## Heat Weld Rods

### Heat Weld/Chemical Weld

Optional heat welding or chemical welding for a seamless, sanitary flooring that's easy to maintain.

\*Chemical weld is only available in transparent.

## Wellness. Vitality. Life.

DuraHealth is a revolutionary approach to medical flooring designed for the healthcare community and patients alike. Creating more than just a flooring alternative, but an overall system of wellness, vitality and life.

DuraHealth creates an ideal environment to foster optimum patient care, maximize the needs of medical professionals and minimize the strains placed on healthcare administrations. From E.R. and treatment areas, to O.R. surgical suites, intensive care units, corridors and patient rooms, DuraHealth not only responds to the diverse demands of healthcare but flourishes in them.

## DuraHealth: The natural choice for our environment

A totally holistic balance between the needs of healthcare and the environment, DuraHealth adheres to the highest standards of environmental responsibility. From its manufacturing process to our packaging and recycling programs, DuraHealth's 'green' characteristics are further enhanced by its minimal maintenance requirements that lessen energy costs and reduce waste water impact.

# Technical Specifications

## ARCHITECT'S SPECIFICATIONS

All DuraHealth rubber flooring shown on the finish schedule or otherwise listed herein, shall be furnished by The Mohawk Group, 500 TownPark Lane, Suite 400, Kennesaw, GA 30144.
