2 Add color and contrast to your chosen pattern.

All of our patterns can be instantly re-colored from our MPact solution dyed color palette that contains 20% recycled content. 350 patterns combined with 145 colors offers endless possibilities. Once you have created the perfect sample select from our multiple room scenes to view your creation where it belongs—on the floor. Create your own project folders to save your favorites.

Three examples of contrast are provided to help guide your color direction—low, medium and high.

MPact Solution dyed yarn bank offers 145 colors with 20% recycled content.

3 View your pattern and color scheme in a multiple settings.

To experience your creation in an actual room scene we offer multiple settings from suites to public spaces. You will have confidence with your selection after seeing the pattern in its true scale in relation to the environment it which it will be installed. The intuitive interface allows easy modification of your pattern and color selections at every step of the process.

Change colors, modify your pattern selection or order a sample with the click of button.

Select from one of eight hospitality room scenes.

4 Order your Simulation and receive within 24 to 48 hours.

If you're happy with the results simply order a 100% recyclable Simulation and have it the next day or save your ideas in your personal project folder to perfect later. You can have confidence when viewing Merit SIMs (simulations) because they are guaranteed to be pattern and color accurate thanks to our partnership with Tricycle, the industry's leading simulation software company.

Save your simulation to your personal project folders to retrieve at anytime you visit.

One time registration saves your name and shipping info. So one click is all it takes to order a simulation.

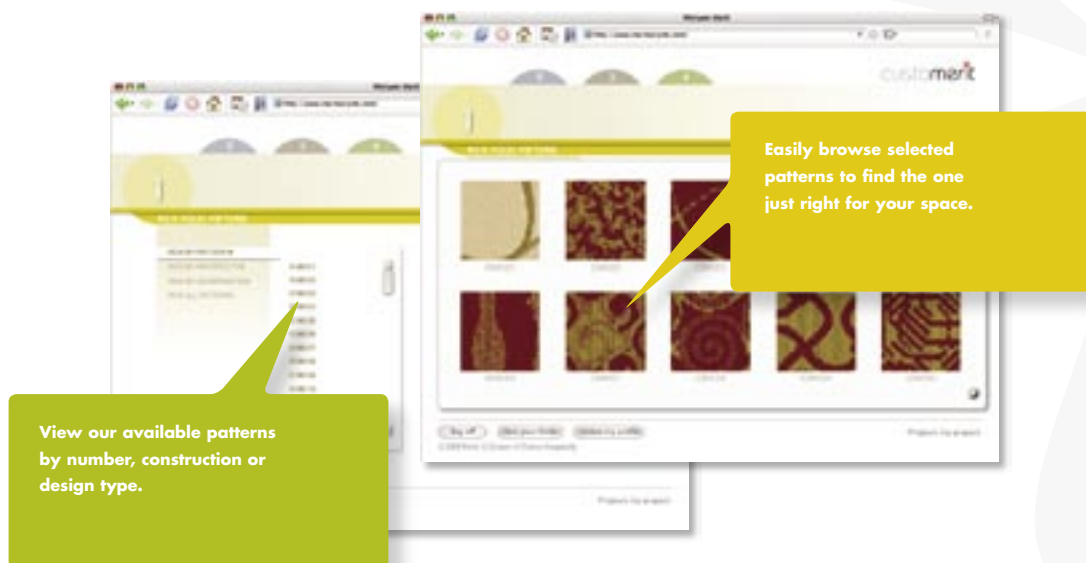

Merit is a  brand
