

UltraSet RC Modular

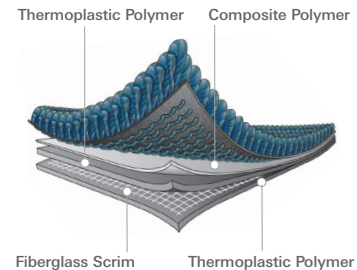

UltraSet RC is a premium modular backing system with the addition of recycled content. It is an ultra dense cushion backing system engineered to give superior performance.

 The Mohawk Group

 Sustainability That Works

UltraSet RC benefits and construction

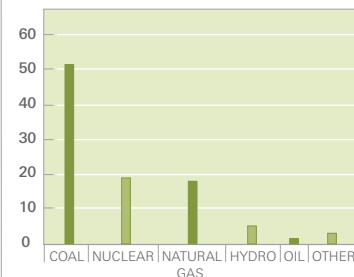

- Constructed with an ultra dense five layer cushion backing system
- Provides an effective moisture barrier
- Features edge ravel and tuft bind construction
- Guaranteed to never cup, dome, dish, shrink or expand
- Reduces slips and cushions falls
- Contains a minimum of 35% pre consumer recycled content by total weight
- Certified at the Gold Level in accordance with NSF/ANSI 140 the Sustainability Assessment for Carpet
- Recyclable through Mohawk's ReCover program

UltraSet RC is UltraSet with Celceram

- Also known as coal fly ash
- Coal fly ash is the finely divided mineral residue resulting from the burning of coal in coal powered electrical generating plants
- It has been used in various forms for more than 2,000 years
- Historically used in the production of cement and industrial fillers
- More recently used for a variety of structural building materials, mineral fillers for paints, shingles, mortar, stucco and in the construction of roller compact dams
- The resulting Celceram greatly increases the recycled content of the backing

US Electrical Needs
(by coal powered electrical generating plants)

The Benefits of Celceram

- Offers high performance properties
- Provides significantly increased levels of recycled content
- Supports the EPA's and other federal agencies initiatives
- Contributes to the U.S. Green Building Council LEED® rating system

USGBC LEED REQUIREMENTS

- The U.S. Green Building Council is the building industry's only balanced, non-profit, consensus coalition promoting the understanding, development and accelerated implementation of green building policies, programs, technologies, standards and design practices.
- The Leadership in Energy & Environmental Design (LEED) rating system is a voluntary, consensus-based national standard for developing high performance buildings. LEED provides a complete framework for assessing building performance and meeting sustainability goals while offering project certification.
- UltraSet RC contains 35% minimum pre consumer recycled content by total weight.
- UltraSet RC can contribute toward all LEED building types requiring carpet.
