KARASTAN

LEES

Bigelow

 DURKAN

**Performance Features:**

- Imparts excellent water repellency to carpet fiber
- Raises fiber surface tension to prevent spills from immediately penetrating
- Aids in ease of soil removal
- Imparts negative charge to fiber that repels common stains at conventional pH levels
- Durable Soil and Stain Repellent Technology
- Complements the ColorStrand SD fiber system

**Technical Properties:**

- Sulfonated Chemistry for enhanced stain resistance – chemically bonds to available fiber dye sites
- Fluorocarbon Chemistry coats fibers and is cured with 300F-350F oven heat. Increases surface tension and decreases static coefficient of friction of fiber surface

**Right to Know:**

- According to the Code of Federal Regulations, Title 29, Subpart Z, Part 1910.1200 and our interpretations of these regulations and the various Right to Know laws, our carpet is considered “articles” and do not release, or otherwise result in exposure to a hazardous chemical under normal conditions of use.
- Our carpet manufacturing processes do not utilize formaldehyde, nor do we receive any raw materials from suppliers that contain releasable formaldehyde.
- Carpet passes CRI Green Label Plus VOC testing protocol (equivalent to California 01350 Emissions Protocol)
