 The Mohawk Group

Self Lock[®] Pre-applied adhesive system

Environmentally friendly carpet installation techniques.

Mohawk

Self Lock® from The Mohawk Group is a pre-applied releasable adhesive on the back of modular carpet tiles which eliminates the need for the spreading of adhesive during installation.

1. Remove old carpet*

2. Peel apart Self Lock tiles

3. Press new tile in place

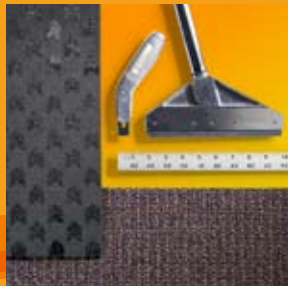

- Less environmental impact because there is no more need for buckets, trowels, transfer papers or other common items used in installation that usually end up in landfills
- Self Lock completely eliminates the problem of off-gassing, improving indoor air quality and contributing to a cleaner, safer work environment
- No ventilation concerns, no odor and no spills
- Eliminates the need to ship heavy adhesive buckets – less cost and energy used
- Ideal for use with LIFT Systems and for quick and efficient repairs or replacement
- Meets LEED Indoor Environmental quality – 4.1 Low-Emitting Materials, Adhesives and Sealants Credit
- CRI Green Label Plus Certified
- All adhesives pass South Coast Quality Management District Rule #1168 for low VOCs

*Start with a clean floor, then apply Mohawk approved floor sealer prior to carpet installation.
